

Rayane Ibnatik

📍 Casablanca, Casablanca-Settat, Morocco ✉ rayaneibn@gmail.com ☎ +212664284817 📺 in/rayane-ibnatik-215a44208

SUMMARY

AI/ML Engineer and Cybersecurity Specialist with expertise in **GenAI pipelines, RAG, LLM fine-tuning, RLHF, and enterprise-scale deployment**. Skilled in **multi-modal data integration (text, PDF, OCR), AI-driven security, and orchestration frameworks**. Recognized among the top 5% of global RLHF contributors. Strong background in **cloud-native MLOps (OCI, AWS, Kubernetes, CI/CD)** and embedding AI into regulated, business-critical workflows. Passionate about bridging **deep tech and product strategy**.

EXPERIENCE

Freelancer

Freelance

July 2024 - Present, Remote

- Built **GenAI pipelines** with RAG, prompt chaining, and long-context orchestration, achieving 15–20% better alignment accuracy.
- Designed **multi-modal ingestion workflows** (OCR, embeddings, PDF parsing) to unlock unstructured data.
- Deployed **HuggingFace Transformers** and optimized model performance for production AI systems.
- Implemented **LangChain-based orchestration** for agentic workflows, integrating reasoning steps into scalable prototypes.
- Optimized retrieval pipelines using **vector stores (PostgreSQL pgvector, Pinecone)**, improving semantic search efficiency.
- Containerized and deployed AI solutions with **Docker, Kubernetes, and Jenkins**, reducing release cycles by 30%.
- Mentored 100+ contributors on RLHF and prompt engineering, improving output quality by 35%.

Full-Stack Developer

ANYDATA

June 2025 - September 2025, Remote

- Developed a **scalable web platform with AI-driven features** for pitch management, boosting user efficiency by 30%.
- Implemented **role-based secure access** with Google Cloud Authentication, ensuring compliance with enterprise security.
- Designed a CI/CD pipeline with **GCP Cloud Build** for daily releases, reducing manual deployment effort by 40%.
- Implemented **Grafana, Prometheus, and Loki monitoring** to improve observability and cut incident response times by 35%.

Pentester

SEKERA

July 2024 - September 2024, Casablanca on-site

- Conducted penetration testing and vulnerability assessments for enterprise clients, identifying 50+ critical risks.
- Integrated automated testing workflows with **Python + security tools**, improving detection efficiency.
- Delivered detailed remediation guidance, reducing high-risk exposures by 30%.

Cybersecurity Lab Engineer & Red Team Automation Specialist

SEKERA

April 2023 - January 2024, Remote

- Automated Red Team workflows with **Caldera, Metasploit, and GPT4ALL agents**, increasing test throughput by 40%.
- Integrated **Kubeflow on Kubernetes** for ML orchestration, tripling capacity for AI-based threat simulations.
- Built CI/CD pipelines with GitLab and Jenkins, cutting manual setup time by 60%.

EDUCATION

Bachelor's Degree in Computer Science

YNOV CAMPUS • Casablanca, Morocco • June 2025

- Valedictorian of the graduating class

Baccalaureate in Mathematical Sciences B (French Option)

High school Ennour 2 • June 2022

CERTIFICATIONS

Oracle Cloud Infrastructure 2025 Certified Data Science Professional

Oracle • September 2025

- Validates expertise in designing, deploying, and managing data-driven solutions and machine learning workflows on Oracle Cloud Infrastructure.

Oracle Cloud Infrastructure 2025 Certified Generative AI Professional

Oracle • September 2025

- Validates expertise in designing, deploying, and optimizing Generative AI applications, including LLMs, RAG, semantic search, and vector databases, on Oracle Cloud Infrastructure.

Full-Stack Development 101

Simplilearn • 2025

AWS Certified Cloud Practitioner (CLF-C02) Cert Prep: 1 Cloud Concepts

LinkedIn · 2025

Practical GitHub Actions

LinkedIn · 2025

INVOLVEMENT

Instructor CanYouWeb - 2025

Ynov · March 2025 - April 2025

- Taught **HTML, CSS, and JavaScript** to high school students, enabling **10+ students** to create fully functional and visually appealing websites.
- **Co-delivered 12+ lessons** with a fellow instructor, designing **hands-on, interactive sessions** that increased student engagement by **40%**.
- Provided **one-on-one mentorship** for **10+ students**, facilitating **troubleshooting of code, mastery of concepts, and improved problem-solving skills**, resulting in a **50% higher project completion rate**.

SKILLS

GenAI & LLMs: RAG, RLHF, HuggingFace, LangChain, LangGraph, CrewAI, Prompt Engineering, Semantic Search, Agentic Workflows

MLOps & Cloud: AWS (Bedrock, SageMaker, Lambda), OCI, GCP, Docker, Kubernetes, Jenkins, MLflow, CI/CD, Grafana, Prometheus

Vector Databases: PostgreSQL pgvector, Pinecone, FAISS, OpenSearch

Security & Compliance: DevSecOps, Penetration Testing, Red Team Automation, Secure AI Deployment

Programming & Development: Python, PyTorch, TensorFlow, Java, Go, PHP, Angular, Symfony, REST APIs

Languages: English, French, Arabic
